

# HyBont Green Hydrogen Project

**Marubeni  
Europower**

## Post-consultation feedback

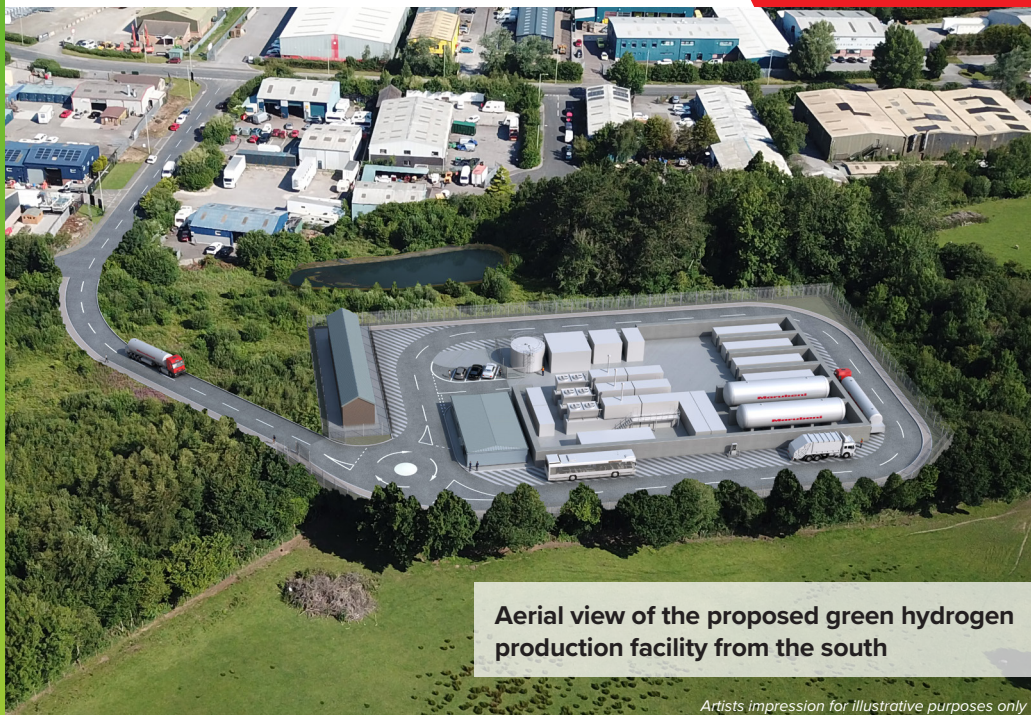

Following the Pre-application Consultation on our proposals for the HyBont Green Hydrogen Project at Brynmenyn and Bryncethin, we are in the process of reviewing feedback and considering key themes, queries and comments.

To update you on the plans and help answer any outstanding queries, we are holding a **Public Information Event** on **Thursday 9 March 2023** (please see details overleaf).

The information being provided at this event will also be available on the project website.

To find out more  
please visit

Delivered by

Dear Resident

We'd like to thank everyone that came along to our public drop in events in December and all those that shared their views on our proposals for the HyBont Green Hydrogen Project during the Pre-application Consultation.

Although that consultation is now closed, a number of issues have been raised that we would like to help address. We are therefore holding a **Public Information Event:**

**12.45 - 6.45pm Thursday 9 March 2023**

At: **Ynysawdre Swimming Pool  
and Fitness Centre,**  
Heol yr Ysgol, Tondy, CF32 9ET

We hope you will be able to attend  
and look forward to seeing  
you then.

**The HyBont Team**
